Structural Changes

The Structural Changes section collects the State's progress toward implementing the State's previously submitted Work Plan. This section is organized according to the Work Plan Template, Appendix E of The Balancing Incentive Program: Implementation Manual.

General No Wrong Door/Single Entry Point (NWD/SEP) Structure (page 1 of 2)

1. Develop standardized informational materials that NWD/SEPs provide to individuals:
 The State intends to seek CMS approval to change the date this deliverable will be submitted.

When does the State anticipate deliverables for this task will be submitted?

(mm/dd/yyyy)

- The State intends to seek CMS approval to amend what will be submitted as deliverables for this task.**

Deliverables:

- This task was completed by the time the Program application was submitted. Supporting information can be found in the application and/or Work Plan.
- This task was completed after the Program application was submitted, and its status remains current.
- This task is not yet complete.

Estimated percentage complete: %

Describe progress for this task during the reporting period:

Describe experienced or anticipated challenges to completing this task:

Describe the State's plan to address the challenges described above:

2. Train all participating staff on eligibility determination and enrollment processes:

- The State intends to seek CMS approval to change the date this deliverable will be submitted.

When does the State anticipate deliverables for this task will be submitted?

(mm/dd/yyyy)

- The State intends to seek CMS approval to amend what will be submitted as deliverables for this task.

Deliverables: (Please note any variance from Deliverables in the Work Plan)

- This task was completed by the time the Program application was submitted. Supporting information can be found in the application and/or Work Plan.
- This task was completed after the Program application was submitted, and its status remains current.
- This task is not yet complete.

5. Pilot implementation and testing of the process to guide a person through assessment and eligibility determination (i.e., single eligibility coordinator, case management system, or otherwise coordinated process):

The State intends to seek CMS approval to change the date this deliverable will be submitted.

When does the State anticipate deliverables for this task will be submitted?

(mm/dd/yyyy)

The State intends to seek CMS approval to amend what will be submitted as deliverables for this task.

Deliverables: (Please note any variance from Deliverables in the Work Plan)

- This task was completed by the time the Program application was submitted. Supporting information can be found in the application and/or Work Plan.**
- This task was completed after the Program application was submitted, and its status remains current.**
- This task is not yet complete.**

Estimated percentage complete: %

Describe progress for this task during the reporting period:

Key elements of the process to guide an individual through the eligibility and assessment process (MOCOR website, toll free number and Level I assessment) became operational October 1, 2013.

Describe experienced or anticipated challenges to completing this task:

The referrals through the MOCOR Screening Tool and toll free number have been very minimal. Because Missouri had a well established system for individuals to access services prior to BIP, individuals continue to access the NWD/SEP agencies directly, avoiding the need for the Level I assessment. Due to the small number of referrals

coming through the system, more time will be needed to determine if there are any problems with the system.

Describe the State's plan to address the challenges described above:

Missouri will monitor the system and level of access over the next three months to determine if changes are needed.

6. Process to guide a person through assessment and eligibility determination (i.e., single eligibility coordinator, case management system, or otherwise coordinated process) is implemented statewide:

The State intends to seek CMS approval to change the date this deliverable will be submitted.

When does the State anticipate deliverables for this task will be submitted?

(mm/dd/yyyy)

The State intends to seek CMS approval to amend what will be submitted as deliverables for this task.

Deliverables: (Please note any variance from Deliverables in the Work Plan)

- This task was completed by the time the Program application was submitted. Supporting information can be found in the application and/or Work Plan.**
- This task was completed after the Program application was submitted, and its status remains current.**
- This task is not yet complete.**

Estimated percentage complete: %

Describe progress for this task during the reporting period:

Missouri will provide notice to CMS that the system is fully operational and describe any major system changes from the original design.

Describe experienced or anticipated challenges to completing this task:

Low level of activity through the MOCOR screening tool and the toll free number will require additional time to evaluate whether processes are working effectively.

Describe the State's plan to address the challenges described above:

Gather and review ongoing data to determine if the MOCOR system is operating as designed.

7. System updates for the process to guide a person through assessment and eligibility determination (i.e., single eligibility coordinator, case management system, or otherwise coordinated process).

The State intends to seek CMS approval to amend what will be submitted as deliverables for this task.

Deliverables: (Please note any variance from Deliverables in the Work Plan)

Describe progress for this task during the reporting period:

Major structural changes were completed October 1, 2013. Structural sustainability has been reached by incorporation into the core funding and is addressed in the draft sustainability plan. Service sustainability is currently being reviewed to

determine how much money will need to be requested in the state fiscal year 2016 budget. The amount of such monies will be affected by a number of factors, including FMAP rates and utilization changes.

Describe experienced or anticipated challenges to completing this task:

As stated above, the service sustainability will be based on factors that will not be finalized until the FY 2016 state fiscal year budget is approved by the legislature.

Describe the State's plan to address the challenges described above:

Missouri will continue to collect data on service sustainability costs and incorporate such into the fiscal year 2016 budget request.

Describe progress toward implementing this measure during the reporting period:

Throughout this reporting period, Missouri convened a workgroup of the collaborating agencies to develop an on-line survey. The survey language has been finalized. Implementation of the survey is through Survey Monkey, but the link is housed on the MOCOR site.

Describe experienced or anticipated challenges to implementing this measure:

The challenges were assuring that the language utilized was at a grade appropriate level for the consumers and yet addressed all the required components.

Describe the State's plan to address the challenges described above:

The workgroup has addressed these challenges through the arrangement of the wording and assuring that each question was addressing a specific CMS required component.

Adult Quality Measures

Describe the measure:(Please note any variance from a similar measure submitted with the Work Plan)

Missouri has been approved for an Adult Quality Grant that will allow MHD to further develop its analytic capacity to collect and analyze data on a comprehensive set of HEDIS measures for the community LTSS population. MHD is developing the capacity to produce HEDIS data, analyze data in-house through a known standardized method across providers, conduct ad hoc analysis of claims data for a variety of quality-related purposes by augmenting its information technology infrastructure, acquire dual eligible data from CMS for the purpose of care coordination at the state and provider levels, and expand educational interventions and data sharing with service providers. Focus will be on development of process measures over time, collection and evaluation of at least fifteen (15) core measures over time, implementation and evaluation of the quality improvement initiatives for the community LTSS population, and evaluation and root cause analysis of goals not met with an emphasis on lessons learned. The core set of measures are currently under development and will be reported separately as measures when identified.

Type of measure:

- Service
- Quality
- Outcome

Applicable populations: (select all populations for whom the measure is or will be used.)

- Elderly individuals (age 65 or older)
- People with developmental disabilities
- People with a serious mental illness or severe emotional disturbance

Estimated implementation percentage complete: %

Describe progress toward implementing this measure during the reporting period:

Adult Quality Grant awarded December 21, 2012 and initial data for calendar year 2012 is being compiled. A core set of quality measures has been identified. The first report will be available in early 2014 for data from calendar year 2012. Quality measures will include Assessments (Adult BMI Assessment, Breast Cancer Screening, Cervical Cancer Screening, Annual Monitoring for Patients on Persistent Medications, Annual HIV/AIDS medical visit), Diabetes (Short-term Complications Admission Rate, Comprehensive Diabetes Care – LDL-C Screening, Comprehensive Diabetes Care – Hemoglobin A1c Testing), Hospitalization (COPD Admission Rate, Congestive Heart Failure Admission Rate, Adult Asthma Admission Rate, Comparison of Hospitalizations Admissions Between Community and Institutional), and Mental Illness (Follow-up After Hospitalization for Mental Illness, Antidepressant Medication Management, Adherence to Antipsychotics for Individuals with Schizophrenia). Individuals receiving community based LTSS have been identified and are being run for the same measures to provide comparison data.

Describe experienced or anticipated challenges to implementing this measure:

A challenge exists with quickly identifying Medicaid participants accessing community LTSS so HEDIS measures specific to this population can be gathered and analyzed. Challenges exist based on timeliness of information. Since the HEDIS measures being used are for calendar 2012, the reporting will be providing outcome data at least one year after the end of the reporting period.

Describe the State's plan to address the challenges described above:

Missouri BIP staff are working closely with staff overseeing the Adult Quality Grant to implement a data sharing process to limit the effects of the timeframe constraints.

The State no longer plans to implement this measure.

Assurances

Explain how the State used the additional Federal funds paid to the State under the Balancing Incentive Program during the reporting period for purposes of providing new or expanded offerings of non-institutionally-based LTSS, as required in Section 10202(c)(4) of the Affordable Care Act.

Missouri used the enhanced funds to expand access to the Partnership for Hope Waiver, the Missouri Children with Developmental Disabilities Waiver, the Comprehensive Waiver, and the Adult Day Care Waiver. An additional 2,916 Medicaid participants have become eligible for community long term services and supports. The amendment to the Comprehensive Waiver was approved by CMS 02/01/2013 with additional slots approved back to July 1, 2012.

For the quarter ending December 31, 2013 the following slots and dollars were expended:

Comprehensive waiver: 428 slots and paid \$9,217,224

Partnership for Hope waiver: 817 slots and paid \$1,631,010

MOCDD waiver: 119 slots and paid \$269,697

Adult Day Care waiver: 1,183 slots and paid \$3,499,778

The State attests it has not restricted eligibility standards, methodologies, or procedures for LTSS during the reporting period.
